### *Other Information*

Plus on the corporate side I've edited for large companies such as Boots, Coca Cola, Everest and Kleeneze.

And that's what I have to offer. A strong and broad knowledge of how a programme should go together. The skills and creativity to edit quickly and to a high standard, both off-line and on-line... plus enjoy it at the same time. However don't just take my word for it, call my referees.

### **Referees**
