PERSONAL STATEMENT

I'm Ria, a 25-year-old experienced edit assistant, data wrangler, junior editor and film & TV enthusiast. I pride myself in my hardworking and friendly nature and always give my absolute best.

I spent over 4 years working as a technical lead at an established Bristol post house, in which we are allocated projects to run the offline workflow, including ingest, media management and relink process. As well as this, I was involved in the online and grade prep. I am experienced in data wrangling and media management, and know the importance of ensuring rushes are backed up and managed properly. In addition I have worked as a VFX assistant, helping establish and run workflows, and occasionally do some junior compositing.

I also have experience not listed in my credits working for high end mini-landmark and landmark NHU series' through work at Doghouse, and worked closely with edit assistants from the BBC and other production companies to insure projects are managed and media is ingested in the right way.
